FUJITSU

THE POSSIBILITIES ARE INFINITE

CoralVIEW Designer

CoralVIEW Administrator

Flexible software that gives you the edge

Coral View Administrator (CVA) and Coral View Designer (CVD) are Windows™-based module management interface programs designed to enhance and complement the versatility of the Coral FlexiCom communications system.

Based on the Windows™ 95/98/00 operating system, CVA/CVD can also be used on the NT operating system.

The user friendly Microsoft™ architecture and GUI interface makes 'adds moves' and 'changes' within the PABX as easy as ABC.

The CVA/CVD display information is simple to understand, making the system a breeze to operate, with context-sensitive on-line help. In-built task wizards are also included for ease of operation through configuration projects.

With comprehensive information reporting with minimum of ongoing maintenance, the CVA/CVD system enable the operator to keep track, keep control and keep in touch.

The Coral CVA/CVD main features and benefits are:

- context sensitive on-line help
- advanced wizard mechanisms
- comprehensive reports
- movements through the application
- online and offline programming
- modern Windows™-based easy operation
- save time on the initial configuration of the Coral and in its ongoing maintenance
